

Continuous Harvest Chart

These can typically be direct seeded as soon as your garden soil is workable – be sure to check for supplier’s recommendations on when to seed, and optimum soil conditions, etc.

	April			May				June			July				August			September					
Onion Sets			P	P	P	P	P					H	H	H	H	H	H						
Peas				P	P	P	P				H	H	H	H									
Spinach				P	P	P		H	H	H													
Radishes					P	P	P	H	H	H													
Beets						P	P	P	P		H	H	H	H									
Potatoes							P	P	P	P					H	H	H	H					
Carrots								P	P	P	P						H	H	H	H			
Chard								P	P	P	P			H	H	H	H						

For a continuous harvest, stagger your planting, so that you are planting some seeds every week, for a specified amount of time. You want to be sure that your last crop has enough time to mature and ripen before danger of fall frost.
